

FINE WRITING INSTRUMENTS

90 YEARS

PISTON MECHANISM

IN MOTION

# Pelikan Passion

**WE ARE CELEBRATING AN IMPORTANT ANNIVERSARY AGAIN THIS YEAR:** 90 years of a piston mechanism! With this groundbreaking invention, Pelikan set a milestone in the development of high-grade writing instruments. Our commemorative writing instrument "Herzstück 1929", a homage to this exceptional technical accomplishment, shows once more how absolutely true we remain to our high quality standard. And how much passion we invest in continuing to write the story of our success. For us, passion is a way of life. It inspires us anew every day. Pelikan is pure writing experience.

*Jens Meyer*

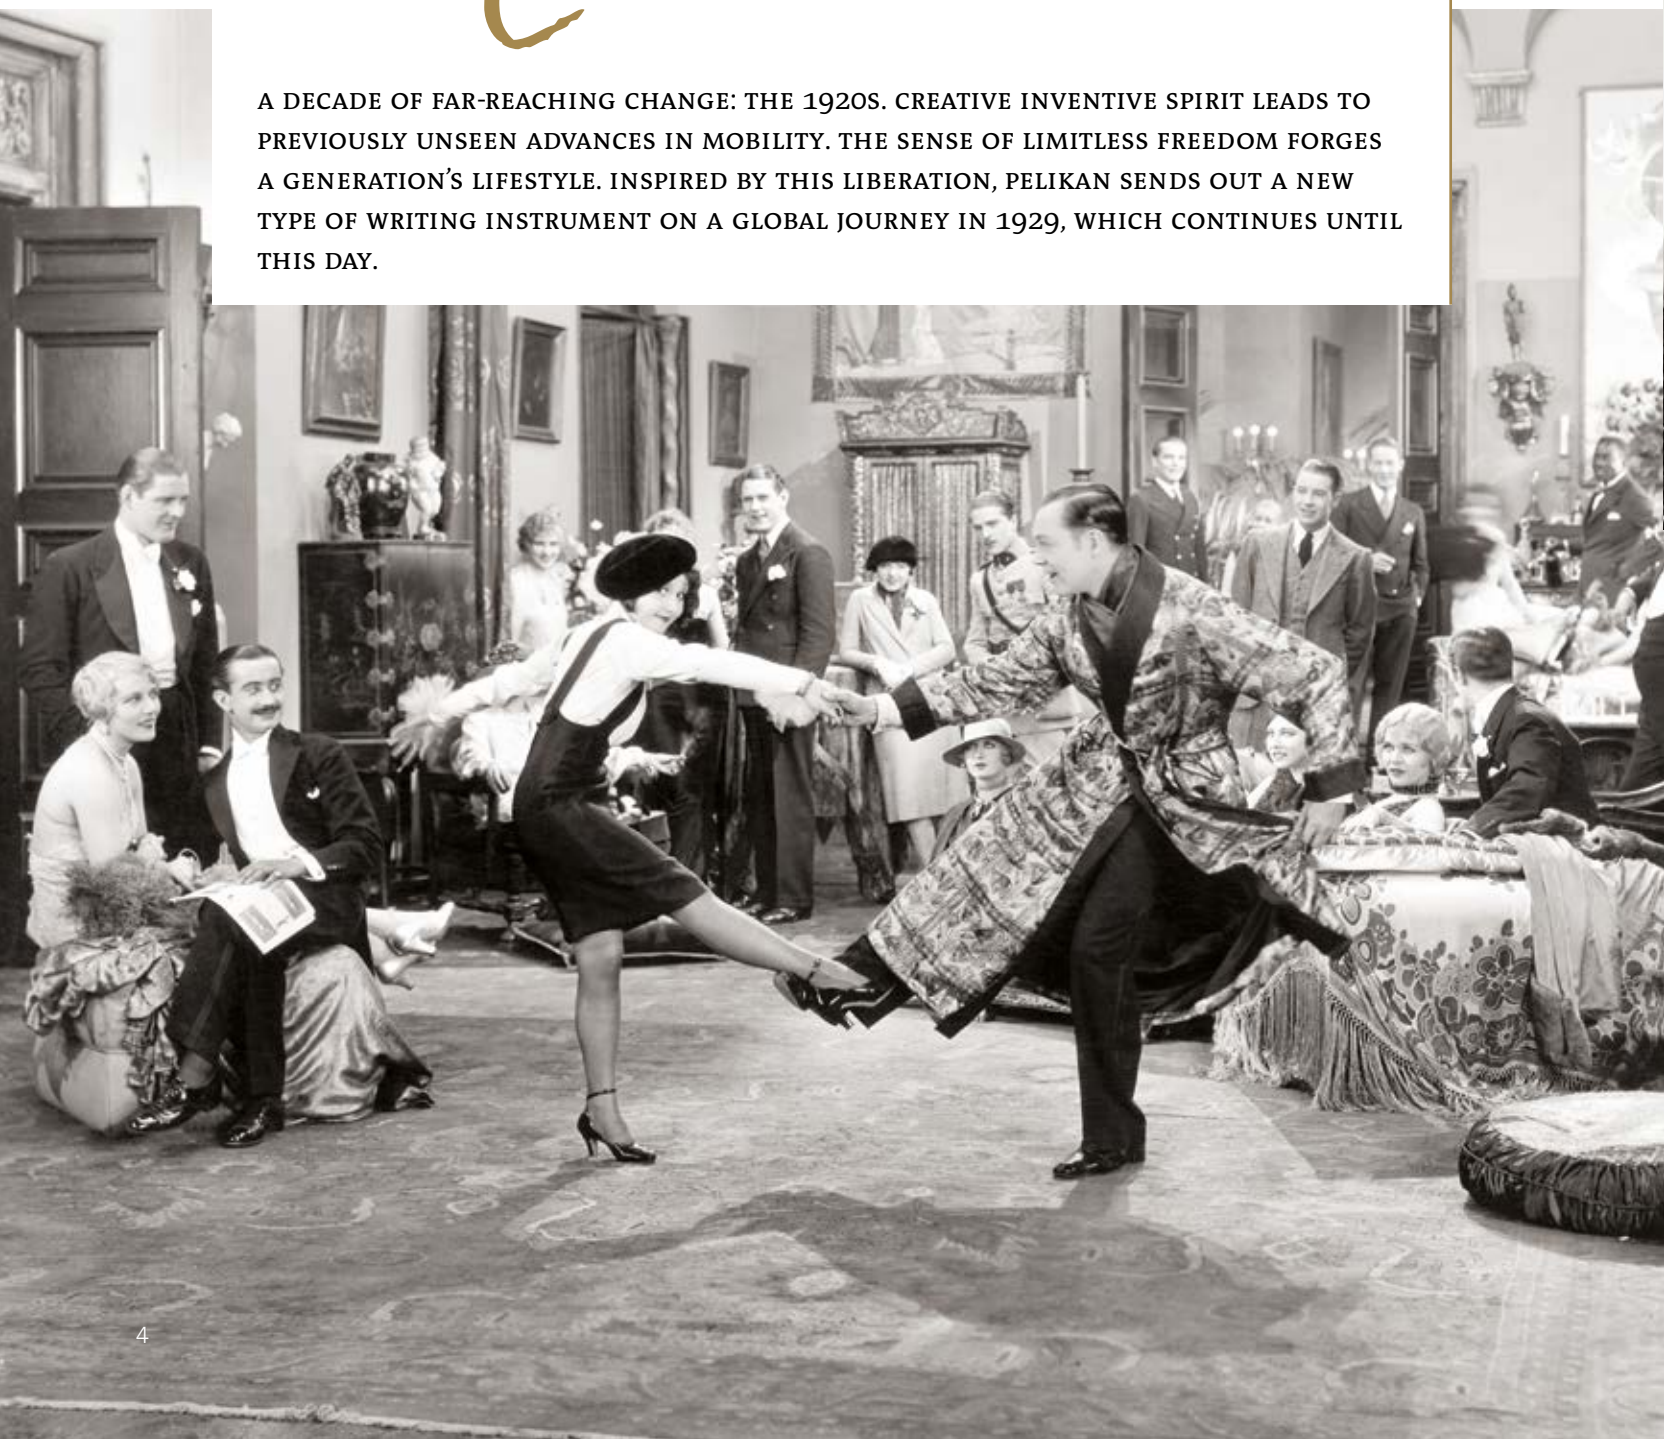

Jens Meyer, Global Marketing Manager Fine Writing Instruments

*Our commemorative writing instrument "Herzstück 1929" honors the first fountain pen with a piston filling mechanism, with which Pelikan revolutionized the market. A limited edition with a vibrant spirit.*

# 90 YEARS IN *Motion*

*The 1920s:  
Eventful times  
both on the  
ground and in  
the air.*

A DECADE OF FAR-REACHING CHANGE: THE 1920S. CREATIVE INVENTIVE SPIRIT LEADS TO PREVIOUSLY UNSEEN ADVANCES IN MOBILITY. THE SENSE OF LIMITLESS FREEDOM FORGES A GENERATION'S LIFESTYLE. INSPIRED BY THIS LIBERATION, PELIKAN SENDS OUT A NEW TYPE OF WRITING INSTRUMENT ON A GLOBAL JOURNEY IN 1929, WHICH CONTINUES UNTIL THIS DAY.

## THE YEAR 1929

**GREAT WINNER** Thomas Mann receives the Nobel Prize in Literature for *Buddenbrooks*. The comic figures Popeye and Tintin and Snowy are setting trends in their own way in popular art. And, very entertainingly, Hollywood surprises with its first Oscars award ceremony.

**HIGHER DREAMS** In New York, the Chrysler Building rises 319 meters into the sky to become the world's tallest building at the time. Walter Gropius revolutionizes art and architecture worldwide with the purist Bauhaus style.

**WRITTEN HISTORY** Pelikan presents the first fountain pen with a piston filling mechanism, revolutionizing the market with a steady flow of ink, no blotting, and a larger, more manageable supply of ink. The famed classic Souverän is considered to be a symbol representing the Pelikan brand worldwide.

**THE ROARING TWENTIES BRING THIS NEW WORLD'S EMERGING METROPOLISES ALIVE:** Berlin, Paris, New York... Progress compels people to advance at a frenetic pace. They look for new ways to break their daily routine. Transport innovations hasten the speed of travel. Automobiles drive along roads, propelled without the physical strength of horses. Count Zeppelin's airship conquers the skies and flies around the world. Ocean liners cross the world's seas while railway tracks crisscross the country. Moving images are shown in palatial picture houses with projectors casting up to 18 images a second onto screens. Music is preserved on records and comes to life wherever there is a gramophone. Pelikan joins the march of progress, patenting a writing instrument which makes it easier for travelers to write while on the move, reliably transferring the ink to paper: The first fountain pen to feature the revolutionary piston mechanism system.

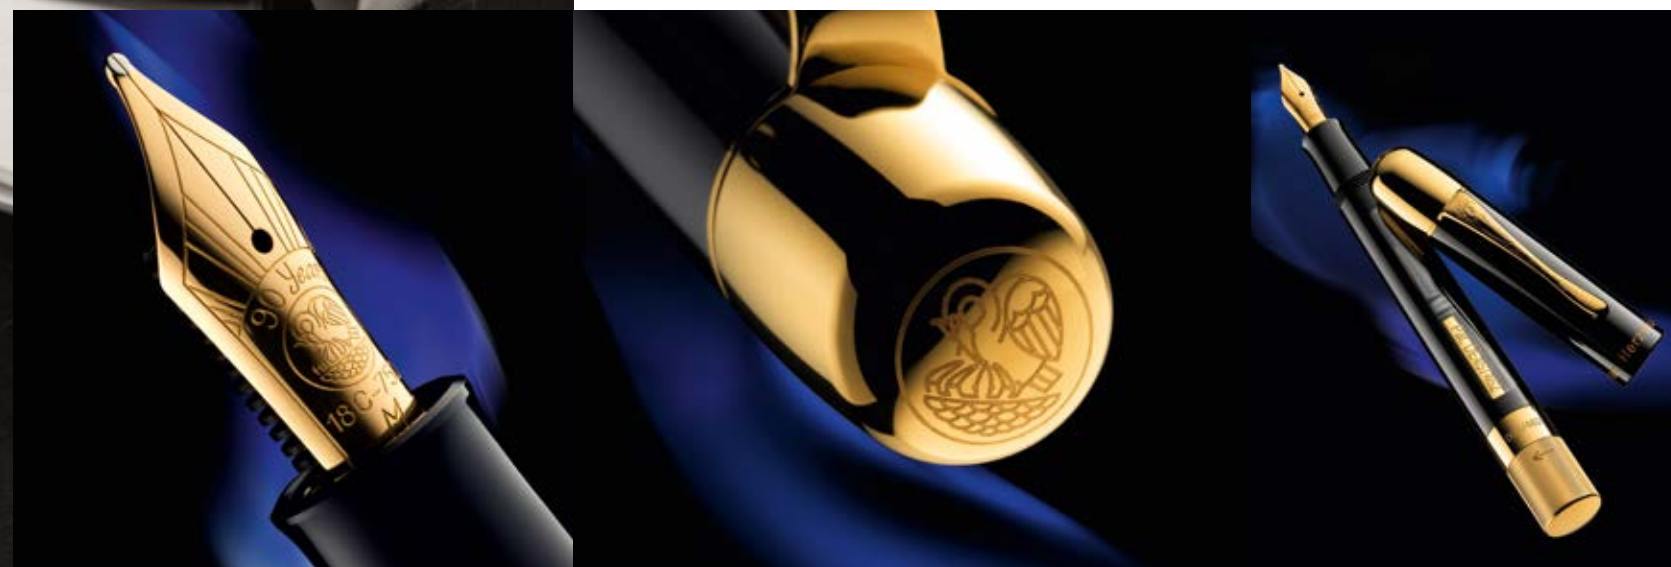

*Günther Wagner poster: Pelikan presents the first piston filler and revolutionizes the market with its patented system.*

# HERZSTÜCK\* 1929 Our new icon

**WE ARE COMMEMORATING THE 90TH ANNIVERSARY OF THE PISTON MECHANISM WITH A SPECIAL LIMITED EDITION:** Our "Herzstück 1929". It brings technical achievement into focus with its exquisite design. The large, transparent inspection window provides a view of the piston and its function. This gives due recognition to the importance of the patent, which had enormous implications for all subsequent Pelikan piston fountain pens. Over the decades, the technical basis of the piston filling mechanism and that of the ink feeder have remained virtually unchanged – an attestation to the maturity of the patent. We have further developed our piston fountain pens in terms of materials, colors and design.

\*Herzstück: The heart, the crucial core on which everything depends. It also has great emotional significance.

### HISTORICAL LOOK AND FEEL IN A NEW DESIGN:

- Our new icon stands out, thanks to the traditional shape of the fountain pen from the M101N series, quintessentially Pelikan.
- Highlight: The transparent inspection window extends along the length of the ink reservoir.
- The piston is gold-plated and bears the historic patent number.
- The 18-carat gold nib is adorned with a special embossment.

*Also in use for decades: The practical, shapely ink bottle 4001®. It makes it easier to fill the piston fountain pen to the very last drop.*

## PISTON MECHANISM A small invention changes the world

The Pelikan fountain pen, with its unique piston filling mechanism, makes its debut worldwide in 1929. What's new is the fact that the ink reservoir is quick and easy to refill and the pen does not make a mess when handled or used to write. Hungarian engineer Theodor Kovács uses his technical expertise to develop this patented pen and sold the patent to the visionary Fritz Beindorff. Beindorff immediately recognized the ground-breaking advantages of this new technology, which reflected the spirit of the times: People were becoming more mobile, traveling around the world and wanted a simple writing instrument for their travels. No-one could have predicted how victorious this little invention would become over the coming decades.

On its 90th anniversary, we can safely say that it transformed the world a little bit more and forms the basis of Pelikan's lasting success on the fountain pen market.

*The limited edition of 462 pens takes its inspiration from the historic patent number, which contains 4, 6 and 2 as the last three digits.*

# The Pelikan Quality Promise

## WE MAKE QUALITY AN EXPERIENCE

Quality is the product of craftsmanship. It is the result of more than a century's expertise. Even so, we rely on much more than just experience. The things that have been tried and tested over decades still need to inspire people both today and tomorrow. In order to meet the most sophisticated of demands at any time, we are consistently working to increase our accomplishment with the greatest passion. We show how you can refine ideas and develop visions. This is what Pelikan quality is all about, and how we have worked for 180 years – and this philosophy continues to guide us every day. Our promise to you.

## OUR SERVICES AT A GLANCE

- Unlimited warranty on limited edition pens\*
- Three-year warranty on Premium and Elegance collections\*
- Spare part, repair, and engraving services

*The perfect balance of advanced technical expertise and love of stylish design. Our Souverän is a classic as well as our brand ambassador worldwide.*

# PISTON MECHANISM – Handmade in Germany

THE PELIKAN PISTON FILLING MECHANISM FORMS THE CORE OF EACH PISTON FOUNTAIN PEN. MADE OF HIGH-GRADE INDIVIDUAL PARTS, IT IS PAINSTAKINGLY CRAFTED BY HAND, GERMAN-MADE, IN OUR FACTORY IN PEINE. IT IS PERFECTION PERSONIFIED DOWN TO THE TINIEST DETAIL.

In addition to experience, you also need true skill and flair to assemble the precision mechanism in Pelikan piston fountain pens. Filling the high-grade writing instruments is also dedicated handiwork.

But how does this work exactly? Put simply, the nib is held in the ink pot and the ink is drawn into the ink reservoir by rotating the grip at the rear end of the fountain pen. If we explain it in more technical terms, two different screw threads on the inside of the fountain pen ensure that the spindle inside moves more quickly than the grip. The negative pressure created by the piston movement then sucks the ink into the fountain pen.

# In conversation

WITH DETLEV KÖHN  
ENGINEERING FINE WRITING

LET'S TALK A LITTLE ABOUT YOU FIRST, MR. KÖHN:

WHAT TIES YOU TO PELIKAN?

I started as a toolmaker trainee back in 1974 and it's now my 45th year working at Pelikan. During this time, I have held various positions in toolmaking and work preparation and have worked as a departmental manager. I'm now responsible for developing and optimizing all processes and procedures for fine writing instruments and nib production in the Engineering Department.

WHAT REQUIRES SPECIAL ATTENTION WHEN MANUFACTURING THESE HIGH-GRADE WRITING INSTRUMENTS?

The piston track must not contain even the smallest scratch or mark; otherwise, the fountain pen will not be air-tight since the piston head will not close correctly with the two lip seals. Each fountain pen is tested to ensure it doesn't leak and is thoroughly checked by experienced employees.

HOW IS THIS DONE?

Each part, such as the piston mechanism, is checked under a very bright light strip. Any imperfections in the material, no matter how small, will distort the light. It takes a trained, experienced eye to notice this change. Incidentally, machines are not able to check nearly as well.

ARE PELIKAN PISTON FILLERS STILL MANUFACTURED BY HAND THEN?

Yes, as they were 90 years ago. The materials have changed a little. Cork would be used to seal the pen in the past whereas TPE, a rubbery plastic, is used today. Composites such as Ebonite, a hard rubber, were used for the piston rod; today, we use materials such as PMMA (acrylic glass) or ABS in line with the latest statutory regulations.

01

02

03

04

05

01 | Grip and spindle nut are assembled. 02 | The greased connector featuring a date stamp is screwed into the grip. 03 | Spindle and twist mechanism are assembled and are screwed into the connector. 04 | The machine uses air pressure to press the assembly together. 05 | Last of all, the piston head is placed on the spindle. The piston mechanism is now complete.

*Goldstücke*

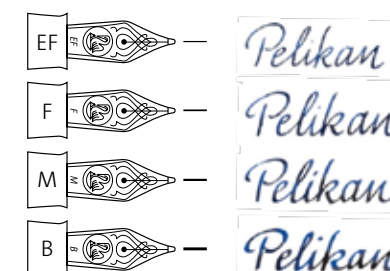

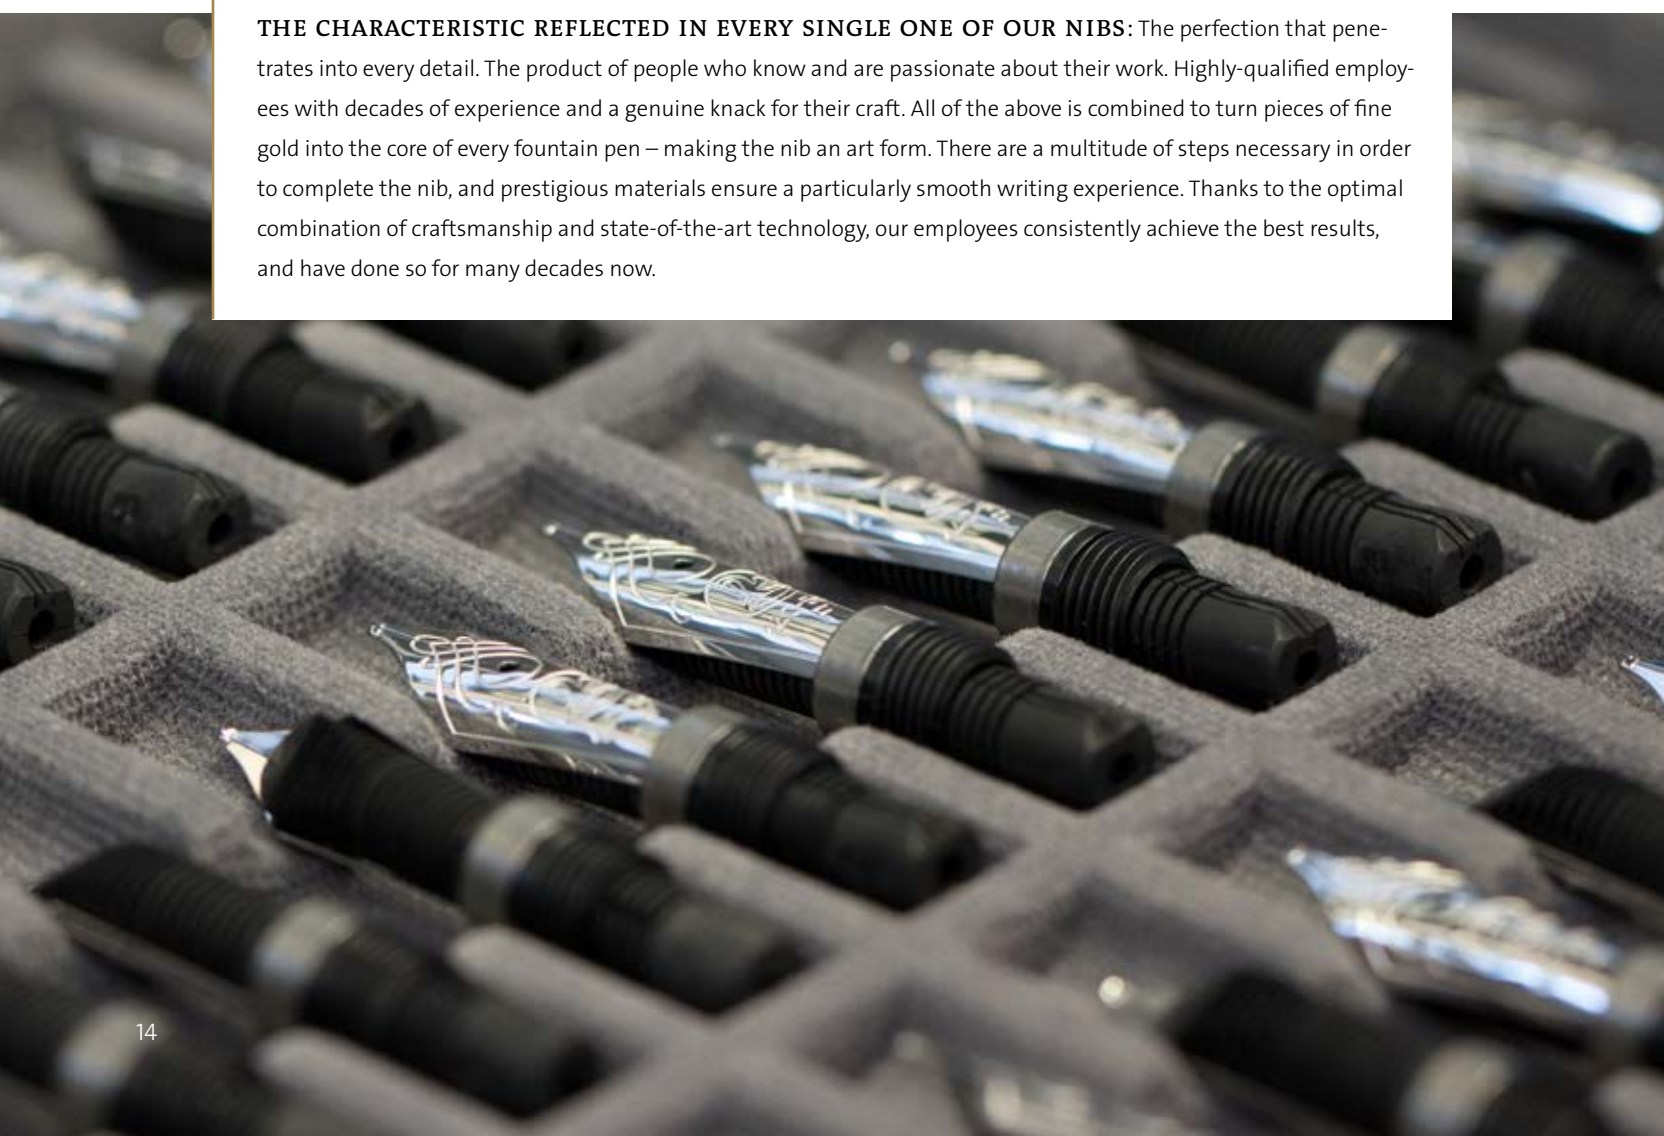

*The nib forms the core of every fountain pen.*

## »FINEST GOLDSTÜCKE with strong character«

**THE CHARACTERISTIC REFLECTED IN EVERY SINGLE ONE OF OUR NIBS:** The perfection that penetrates into every detail. The product of people who know and are passionate about their work. Highly-qualified employees with decades of experience and a genuine knack for their craft. All of the above is combined to turn pieces of fine gold into the core of every fountain pen – making the nib an art form. There are a multitude of steps necessary in order to complete the nib, and prestigious materials ensure a particularly smooth writing experience. Thanks to the optimal combination of craftsmanship and state-of-the-art technology, our employees consistently achieve the best results, and have done so for many decades now.

**CRAFTSMANSHIP IS AN ART IN ITSELF.** Depending on the model, gold nibs are made from 14 or 18-karat gold, and are occasionally also rhodium-plated in order to gain a prestigious, silver appearance. The ornamentation on the nib is typical of every model and, in the case of limited-edition pens, is tailored to the theme of the respective pen. Extreme attention to detail in every stage of the production process is of particular importance to us. For instance, every nib is inscribed by hand once it is complete. A certain special touch is required for this, a touch that cannot be replaced by a machine.

In order for this core to continue working continuously, that is, so that the ink continues to flow instead of drying out during longer pauses in writing, all Pelikan fountain pens possess an insert on the inside of their cap that ensures an airtight seal. An ink feeder developed over the course of decades helps to make sure that ink flows flawlessly as it should. It is located beneath the nib and uses capillary action. It is crucial that the width of the individual channels on the feeder is precise and accurate.

*Fine nibs EF and F: Ideal for short notes and people who have precise handwriting. Medium and broad nibs M and B: For occasional writers, signatures and spirited handwriting.*

*"Handwriting and penmanship are my passions. With my custom nib, it feels even more spectacular."*

# Make a Wish NIB

## UTMOST PRECISION AND INDIVIDUALITY: THE PERFECT MIX.

Once a month, our factory in Vöhrum, a small town in Germany, opens its gates to the public. A popular date for all of our customers with a passion for writing, for beginners, and for collectors of high-quality writing instruments who want to have a 'Make a Wish Nib' made for them. The extremely cheerful atmosphere is appreciated greatly by all guests. "The level of skill that the specialists have when it comes to nibs is awe-inspiring. Even the noise made by the nib when writing is factored in when they make the personal nibs," reports one highly impressed customer. Detlev Köhn, who looks after our division for engineering fine writing instruments, receives high praise for this individual service offered by Pelikan.

"S" for Special ..... S

## PERSONAL NIB MADE in our factory

### EVERY PERSON WRITES DIFFERENTLY. EVERY NIB TOO.

All Pelikan nibs share one thing in common: The pleasant feeling when you write with them. Your unmistakable, individual handwriting is an additional aspect that plays a role in the "Make a Wish Nib", and it is exactly this that our nib specialists pay heed to when carefully making it. During the consultation and your writing of a sample passage of text, they consider the following details: The speed and frequency with which you write, how much pressure you exert when writing, the angle at which you hold the nib, the hand with which you write, the paper used and the desired flow of ink. A nib could hardly be more individual. It emphasizes an individual's handwriting.

### OUR NIB SPECIALISTS WILL FULFILL YOUR WISHES:

- The production of each nib reflects the desired area of usage and personal writing traits.
- There are various nib sizes on offer.
- Only two-tone, gold Souverän nibs are cut as part of this campaign.

We offer this service once per month and, if desired, with a tour of our factory included.

Simply register online:

*"Its personality is born during manufacturing."*

**ANNUAL HIGHLIGHT.**

All's well in the ink well? Things are not quite as simple as that. Our Edelstein ink is the jewel of all inks. New design, a unique formula, the latest color accents and a writing experience as smooth as silk. Exceptional highlight: Every year, we present a new Edelstein ink color limited to just that calendar year – our **Ink of the Year**. The collection may be available for a limited period, but the demand is unending.

# Edelstein

## INK OF THE YEAR

**BY PELIKAN FANS FOR PELIKAN FANS.**

Launching the Edelstein Ink of the Year has caused a color frenzy all around the world: Dedicated Pelikan fans have chosen their favorite color in a Facebook campaign. They were given the ability to mix their own color online, give it their own jewel-based name, and upload their ink creation to the public gallery for voting. A jury consisting of five Pelikan company representatives and five Pelikan fans from across the world selected the winner from the 15 most popular colors. Our Ink of the Year 2019 carries the melodious name Star Ruby and will be available from March 2019. We are extremely grateful to our fans, who will surely impress very many calligraphy enthusiasts with their choice.

*"Ink of the Year is an exceptional world of experience. We reach a large community and find it fantastic when an idea takes off in a manner such as this."*

*Jana Jegella, Global Product Manager Fine Writing Instruments*

# ART in the TintenTurm

THE GREAT PELIKAN WORLD DISPLAYED OVER 657 SQUARE METERS: THE DOORS TO THE TINTENTURM FIRST OPENED IN THE HISTORICAL PELIKAN QUARTER IN HANOVER IN 2017. THE HISTORIC HALL IS PALATIAL, PROVIDING AMPLE SPACE FOR CHANGING EXHIBITIONS.

Fascinating insights, both rare and contemporary, await Pelikan brand enthusiasts and customers in the rooms of the former head office: Pelikan showcases its creative variety in three sections in the TintenTurm: the shop, the museum and the event space. Legendary classics and innovative new products can be tested and purchased here. Regular events, readings and guided tours disseminate their very special flair.

"The Pelikano 478 looks beautiful, writes well and is a true workhorse: If you treat it properly, it will last forever!" (Peter Hotzan from Hanover)

## PELIKAN HUB

# international

A HUB IS A PIVOT, A FOCUS OF ACTIVITY. For Pelikan fans, a hub is a place where they can meet, exchange experiences and network beyond national borders. This was also the case in our anniversary year; at the 5th international HUB we also celebrate in the historical hall in the Pelikan TintenTurm. Men and women sat around the long table covered in a white tablecloth. Dressed in T-shirts or more festive outfits, people of all ages came from all over: some from Hanover itself, others from more distant Bielefeld and Bochum. However different these people may be, they all had one thing in common: a passion for high-grade Pelikan fountain pens and a love for calligraphy. Fans came together all around the world as they did in Hanover to share their fascination for elegant writing instruments.

Text says:  
DRAWING INKS  
unique lumiosity due to the ink of sepia.

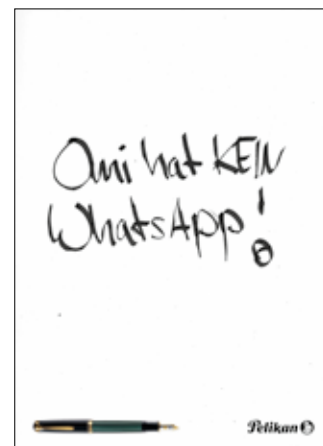

"I think it's great I can exchange experiences with others who are just as enthusiastic as me and try out new fountain pens." Steffen Poppen, mechanical engineering student, 26, from Bochum

900 calligraphy enthusiasts from Sydney to Seattle took part in the first meet, but more than 5,000 participated in 181 local HUBs in 46 countries at 6:30 p.m. local time on 9/21/2018 in the anniversary year. They showed one another unusual Pelikan fountain pen editions and first purchases or brought pens to exchange, always carefully stowed away in soft leather cases. They talked, laughed, gave each other tips. Enjoying the evening in the stylish ambiance of the TintenTurm, the last guests left the hall at a late hour. They were already looking forward to the next HUB in 2019.

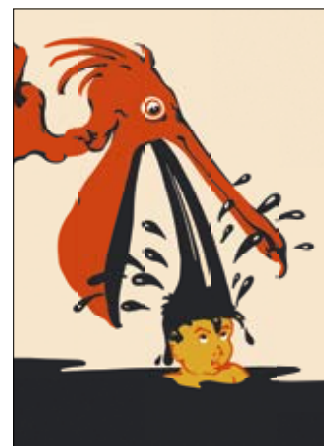

Each HUB participant received "Olivine", the Edelstein Ink of the Year 2018, as a gift to take home.

Students have studied vintage Pelikan posters and re-interpreted them.

Text says:  
Grandma doesn't have WhatsApp!

THE CHANGING EXHIBITIONS IN THE HISTORIC HALL DELIVER ARTISTIC HIGH POINTS: For instance, Visual Communications students from Hanover University of Applied Sciences and Arts showed their reinterpretations of vintage Pelikan advertising posters during the re:pelikan exhibition. A small selection of items from the company's 180-year history is always on display, such as vintage ink pots and the first Pelikan piston fountain pen from 1929.

### International highlight:

## PELIKAN HUB 2019

Since 2014, Pelikan has initiated coordinated annual Pelikan HUBs worldwide. In our anniversary year 5,000 collectors and fans came together to share their knowledge and enthusiasm for Pelikan fountain pens, a passion which beguiles increasingly more fans. Anyone who wishes to experience the spirit of these international events live: September 20<sup>th</sup>, 2019 is Pelikan HUB Time again!

Nominated and in demand:

# PELIKAN PASSION Magazine

We celebrated the first edition of our customer magazine Passion in our anniversary year of 2018. We have created a special magazine for the culture of writing, which surprises with its variety of topics and its sophisticated, consciously sleek, elegant design – so impressive that Passion has been honored with the “Special Mention” award. A total of 40,000 copies were printed for our first edition. Both customers and retailers are fascinated in equal measure worldwide. This inspires us to eagerly create the second edition, which will be available from August 2019.

You will find the world of prestigious writing instruments exclusively at:

# WWW.PELIKAN-PASSION.COM

*Our lizard with sparkling diamonds: The 238 copies of the limited edition M101N Jubilee Pen from 2013 with an exceptional reptile design quickly sold out.*

# Limited Editions

## RARE BEAUTY.

We are synonymous with precision. With extraordinary richness of detail. With exclusive, unique pieces. This passion is particularly reflected in everything we do related to limited edition pens – design concepts are transformed into fountain pens with a love of detail. Like the Seven Wonders of the World, for example, which inspire collectors all around the world. The edition number on the grip of every pen attests to the uniqueness of this limited, one-time edition. Rare beauty that arouses great desire.

*Maki-e*  
UNIQUE  
WORKS OF ART  
by the masters

### SPRINKLED PICTURES RICH IN TRADITION.

Maki-e is a traditional Japanese craft passed down from generation to generation. When translated, the name of the technique means “sprinkled picture”, a meaning derived from the fine gold and silver dust and, occasionally, also the dust of shaved precious stones sprinkled across the fountain pen. Mastering this intricate art form requires many years of intensive training as well as a high degree of skill.

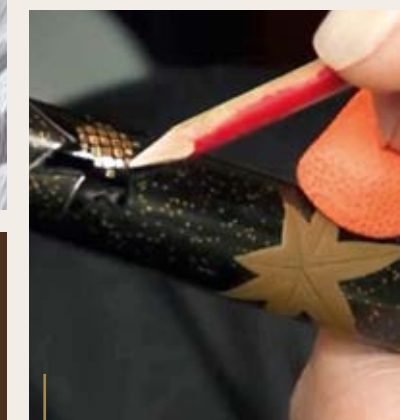

All Pelikan Maki-e fountain pens are handmade, unique pieces created to last. By using specially prepared Urushi lacquer acquired from the sap of the East Asian lacquer tree and finely ground precious metals, intricate motifs are created in an extremely laborious, time-consuming process. The coveted Maki-e unique collection is pure luxury.

[www.pelikan-passion.com/movie](http://www.pelikan-passion.com/movie)

On our website, you can watch Japanese artist Mr. Mushu Yamazaki carry out his fascinating work. “The art of creating a Maki-e fountain pen.”

The number of steps required to produce these exceptional motifs is very high. The ginkgo leaf is lovingly decorated with gold plating called “kirigane”.

### LIFE-LONG QUALITY

The features of the Maki-e materials are unique. Despite its solid consistency, the set lacquer maintains a high level of elasticity which permanently protects it against the development of cracks. The richness of detail will continue to amaze even after many years. All Pelikan Maki-e fountain pens are handmade, unique pieces created to last.

Peacock

Pelikan   
SPIRIT OF  
**1838**

LIMITED EDITIONS

Pelikan 

## UNIQUE SPIRIT

Our icon for the company's 180th anniversary in 2018 pays homage to the stylish creation which has aroused an insatiable desire for decades: the Souverän with its striped pattern.

Our classic pen in a green-black striped design is Pelikan's brand ambassador and flagship – the unique Spirit of 1838 impresses in elegant sterling silver. Its high-gloss, silver decorative elements on the cap, rings and beak clip emit great radiance. The shaft is also finished in fine sterling silver and etched with soft grooves. The silver-plated nib is adorned with a special embossment. This is where classic elegance meets high-grade finish. This rarity is limited to 180 copies worldwide.

### VALUABLE GEMS WITH A SPARKLING EFFECT

The famed pelican on the cap not only protects its chicks, but also three sparkling diamonds, which have been deliberately placed in its nest – they represent the Pelikan values of trust, reliability and German-made quality. A brilliant idea.

## THE STATUE OF ZEUS

Limited Edition

LIMITED EDITIONS

Pelikan 

## SEVEN WONDERS OF THE WORLD.

The Seven Wonders of the World form a list that brings together architectural masterpieces of the Ancient World, which have held deep fascination over the centuries with their lasting allure.

These impressive structures include the Great Pyramids of Giza, the Colossus of Rhodes, the Temple of Artemis, the Hanging Gardens of Babylon, the Tomb of Mausolos II, the Lighthouse of Alexandria, and the Statue of Zeus at Olympia. Pelikan pays tribute to these perfect examples of ancient craftsmanship with its exquisite limited edition **the Seven Wonders of the World**.

### THE STATUE OF ZEUS\*

From 2017, pays homage to Zeus, the Greek king of the gods. Pelikan uses him as a pattern for its sixth limited edition, giving him divine radiance with precious materials: Fine rose gold, ebony and ivory color shades adorn this magnificent edition. Copies are limited to 300 pens worldwide.

Each edition comes with its own exclusive gift box.

\* Only limited quantities available. Already sold out at Pelikan.

# Special Editions

## A TROVE OF CREATIVE TREASURES.

An unbelievable amount of passion is put into our special editions. They represent something extraordinary and are anything but average in terms of their overall appearance. We only reveal the design of our latest special editions shortly before putting them on the market, where they are awaited with anticipation. No model is similar to the other, with our trove being filled abundantly with creative treasures. This is what it means to bring luxurious writing to perfection.

*One of the most beautiful renditions of heavy metal: Our elegant Metal Striped pen features the typical striped design element of the Souverän® series.*

# LIMITED Classics

SPECIAL EDITIONS

Pelikan 

M 600 and K 600  
Turquoise and white  
2018\*

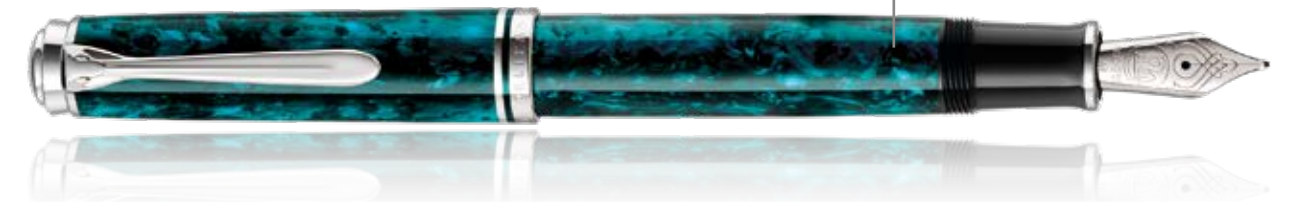

M 205 Aquamarine, 2016\*

The classic shape of the Souverän is the perfect basis for our special editions. Unfailingly creative ideas give these series their individual flair.

Exceptional materials, colors, and designs are continually reinterpreted. The result is extraordinary pens that are highly coveted. The editions vary in the types of pen offered – whether they come as a fountain, ballpoint, or rollerball pen and the sizes that are available. All editions are limited and some models are only available in very few numbers.

## OCEAN SWIRL

The glistening turquoise-green finish resembles ocean shallows, an enticing play of colors determined by the intensity of exposure to light.

# Premium

## PRESTIGIOUS PERFECTION.

The search for the perfect symbiosis of classic elegance and sophisticated quality will lead you directly to our Premium collection. Fine nibs made of 14 or 18-karat gold crown each fountain pen. Gold and silver ornamentation ensure the unique Pelikan design is completely perfect. In these pens you can witness the combination of expertise and craftsmanship in one fascinatingly smooth writing experience – prestige for highly varied demands and preferences.

# TOLEDO® AN ARTWORK in Spanish style

PREMIUM

Pelikan 

The art of Damascus patterns is thousands of years old. It comprises an elaborate method of applying ornamentation to steel or iron by impressing a thin gold film onto the surface. This sophisticated technology was brought to Spain by Arab settlers, where it was perfected over centuries, especially in the city of Toledo.

Pelikan commenced using this Damascus patterning technique for its model "Toledo" as early as 1931. This artwork is so highly coveted that it has continued to spread its magic for decades almost unchanged. Today, the decorative barrel is produced from a single piece of 925 sterling silver. Once the barrel has received multiple, special treatments, the motif is applied using a layer of gold. In the next step, the motif is etched on by hand, with the filigree detail giving the motif a life of its own.

Each Toledo writing instrument is a unique piece manufactured in Germany. As a result of the taxing craftsmanship required, only a maximum of 50 instruments per month can be made. Every one of them is a great masterpiece in itself, and a small piece of history.

*Whoever owns a Toledo writing instrument possesses a work of art and a small piece of history.*

## A WORLD-FAMOUS CLASSIC.

1950 was the year of birth of our Model 400. Even today, this classic with a black-and-green pinstripe sleeve is still considered a symbol of the Pelikan brand worldwide. It is our brand ambassador and the company's flagship product. We are extremely proud of our stylish creation having aroused unconditional desire for decades now.

In the 1980s, the series was given the name "Souverän", meaning sovereign in German. However, people often refer to it by its colloquial name "Stresemann" after the striped suits worn by the German Foreign Minister of the same name in the 1920s. This name continues to write history today, and will do so in the future too. In a manner befitting a sovereign. Today, this fountain pen exists in many variations and, despite the continual refinements of the design and technology, its fundamental mechanics remain the same.

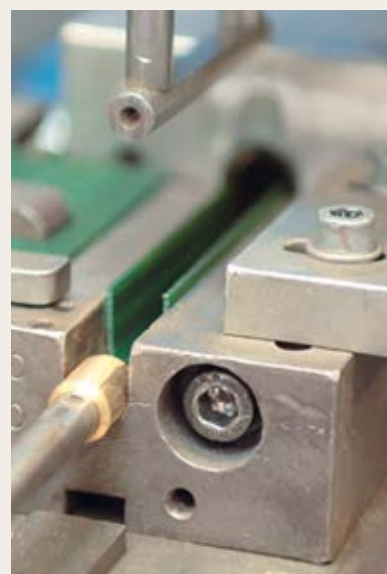

In 1929, Pelikan was the first company in the world to patent a piston filling mechanism. This technology uses two different screw threads on the inside of the fountain pen to ensure that the spindle inside moves more quickly than the end piece of the barrel. As a result, it is very quick and easy to refill the pen.

## MADE TO MEASURE BY THE MASTERS.

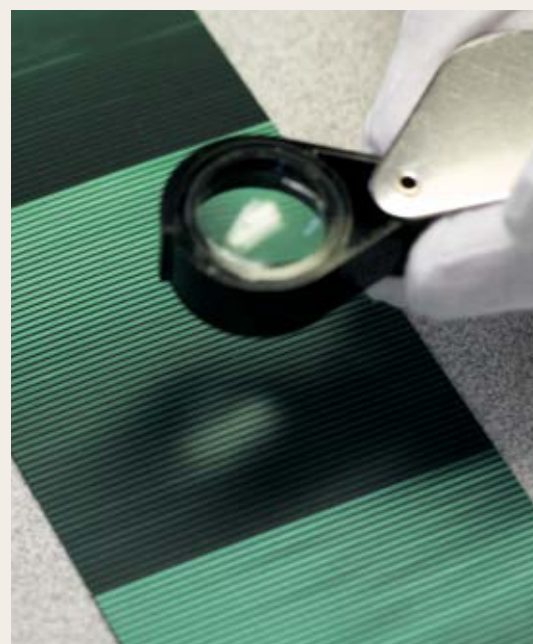

The production of the Souverän sleeve is subject to an elaborate process. The typical, striped material is made out of cotton based on a formula developed specially for Pelikan. It takes months until the block providing the stripes is finished, whereupon the tailor-made plating is curved and cut into a contour using a natural diamond. The characteristic double rings are then integrated into the cap and barrel with the utmost precision, making sure that the transition between the materials is almost seamless. The writing instrument is polished until it reaches a brilliant luster.

The famous beak-like clip and Pelikan cap are placed on top, forming the crown of the Souverän. Writing instruments of various sizes are created to ensure a product completely individual and suitable for your personal preferences.

### HAND-SELECTED, UNIQUE PIECES:

The design of the Souverän is unique, and every fine, connected pinstripe on the material shines in individual appearance. From Model 300 through to 1000, the surfaces are diamond-cut, giving them additional sheen. Our black models are made of high-grade resin, considered the "platinum" of all plastic materials, and are self-polishing. They are characterized by an extremely rich sheen and their solid, durable surfaces.

## SOUVERÄN SIZES COMPARED.

Souverän M 1000 14.7 cm | Ø 14.1 mm | 32.6 g | 1.35 ml | **XL**

Souverän M 800 14.2 cm | Ø 13.1 mm | 28.2 g | 1.35 ml | **L**

# SOUVERÄN® 400

Tortoiseshell-White

PREMIUM

Pelikan 

## SOUVERÄN® 400 TORTOISESHELL-WHITE.

This exceptional Souverän is produced in the model's classic shape, with bright color nuances giving it a fresh appearance. The transparent, pinstriped material has a soft, golden shimmer. The cap and other parts of the casing feature a subtle white color that gives the model its characteristic radiance. The Souverän Tortoiseshell White was created in 2004 and draws inspiration from its forebear, the M400 Tortoiseshell Brown, as an exceptional color variant.

This decorative piece has ensured many enlightening moments right from the start, and is still a wonderful alternative to black even now. This acts as confirmation of our *modus operandi*, letting classics stand out from the mass and daring to try new things. The demand for this sumptuous design is considerable.

*Fountain pen, ball pen, mechanical pencil, and rollerball are available to choose from.*

Pelikan 

## A KEY PERSONALITY.

Germany's foreign minister during the 1920s, Gustav Stresemann (born 1878, died 1929), received the 1926 Nobel Peace Prize together with Aristide Briand for his Franco-German reconciliation work. On top of his outstanding political career, Stresemann was also known for a particular suit design, a suit that was ideal for official appearances, yet that could also be worn casually in the office.

*His particular suit design was mainly characterized by pinstriped trousers. These trousers form the basis for the tribute the collection is officially making with the title "Stresemann".*

Stresemann frequently wore this suit, made of a refined, pinstriped fabric, which in the end became legendary. At the same time, Pelikan and its pinstriped fountain pens were beginning to take the world by storm and people came to refer to the latter as "Stresemann" too, consequently gaining a personality of their own. Back then, we offered our Souverän classics mostly in a black/green-striped design.

Today, both the suit as well as these fountain pens bear Stresemann's name. To pay proper tribute to this legend, Pelikan has now officially christened the latest addition to its collection, the Souverän with stylish anthracite pinstripes, the "Stresemann".

# Elegance

## CLASSIC SERIES.

The Elegance collection represents your entry into the world of high-quality writing instruments. Classic elements such as the typical Pelikan beak-like clip and ornamental rings on every writing instrument make a clear statement about the Pelikan brand. Whether a fountain pen, ballpoint, or mechanical pencil: Our decades of experience and flair for timeless, classic design are incorporated into each Elegance writing instrument. They are truly perfect and unmistakable.

*The M 205 has decorative silver ornamentation and our logo in black on the top, and enjoys a highly reputable standing: It is bound to impress you upon first glance.*

# CLASSIC

ELEGANCE

## CLASSIC AND TIMELESS.

### MADE IN GERMANY

Classic series are available with silver or golden highlights. All parts in these writing instruments are manufactured in Germany.

The writing instruments in these series are the epitome of classical writing culture. Featuring a perfect appearance with an unmistakable Pelikan design, they form the elegant writing instruments of our timeless, beautiful Classic series. The typical shape of the cap is known across the world and enjoys great popularity.

Pelikan enjoys worldwide renown for its fountain pens. In response to the demand of many customers, we have fitted our Classic Series 200 with the practical cartridge filling system. This mechanism is particularly attractive for travelers or those who prefer to be able to quickly change cartridges. Market needs are always changing, and so are we.

## TWO FILLING SYSTEMS.

Our Classic Series 200 comes featuring two filling systems: The piston filling mechanism and, as an alternative to this, the cartridge filling system. The classic piston mechanism allows you to fill the pen directly from an ink bottle and can be called Pelikan's typical fountain pen mechanism for high-quality writing instruments.

We also offer a fantastic product variant for fans of cartridge filling systems. You can refill your fountain pen or change its writing color by swapping the cartridge. The swap can be done quickly: Simply unscrew your writing instrument behind the grip and change the cartridge.

As a result, you can celebrate the pleasure of writing imaginatively using both filling systems.

### THE CLASSIC CARTRIDGE FOUNTAIN PEN

For all fountain pen lovers, we offer the Classic Series with two filling systems: the M 200 and the M 205 comes with the differentiated piston mechanism, the P 200 and the P 205 with a cartridge filling system. The Classic Series 200, just like the M 200 and the P 200, comes with gold-plated ornamentation. The stainless steel nib is gold-plated as well. In addition, we offer the fountain pen M 205 and P 205 with silver ornamentation and a high-polished stainless steel nib. All series are available in nib widths EF, F, M, and B.

The cartridge fountain pen is available in a silver, chrome edition under the number P 205.

# CLASSIC HIGHLIGHTER

## AN INNOVATIVE CLASSIC.

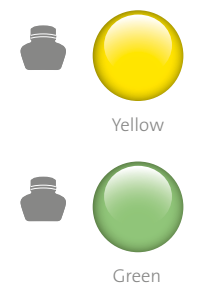

Our **Classic Highlighter DUO** combines two core functions at once: On the one hand, you can mark important lines that need to stand out in a text, and, on the other, you can also jot down your own thoughts. This innovative writing instrument is thus a fountain pen and highlighter simultaneously. The smooth writing experience and vibrant, specially-developed ink are highly impressive. So impressive that the highlighter has already received multiple awards.

### Classic 205 DUO Highlighter – Special Edition

nib/color	order no.	EAN 4012700-	match code	unit 1
<b>Fountain pen with highlighter ink</b>

<b>Highlighter ink*, 30 ml</b>				
Yellow	344 879	344878		78 GE
Green	339 580	339584		78 LG

\* The highlighter ink should only be used with the fountain pen 205 DUO Highlighter exclusively. Ink feeder and ink are especially developed to work out in combination.

# PURA®

ELEGANCE

Pelikan 

A CLEAR STATEMENT.

Straight-lined. Simple. Pure. When you behold the Pura, it is clear that the unmistakable, highly sophisticated design pervades it, from the cap down to the barrel. It has a language entirely of its own, yet one that you can understand immediately. The balanced combination of matte silver and glossy surfaces adds an air of nobility to this aluminum writing instrument, giving it a subtle, elegant silhouette. The solid, spring-mounted silver clip on the cap underscores the elegant, straight lines in this pen's design. The instrument sits comfortably in your hand when writing, in a way that is cool rather than cold.

Featuring a glossy, polished stainless steel nib and the convenient cartridge filling mechanism, it is also clear and simple to use the Pura fountain pen. The series is complemented by ballpoint and rollerball pens so as to accommodate all writing preferences. The end effect: A release of pure writing pleasure. A statement could hardly be any clearer.

# Accessories

## A WORLD OF PRESTIGE.

The selection of original Pelikan accessories is multiplex. They are that extra something that tops off our range. A soft leather pouch, for example, provides optimal protection for your writing instrument. Our first-class ink has such brilliant pigments that it will make your handwriting radiate, whether you use our classic 4001 or our Edelstein ink with a particularly smooth writing quality. All of our accessories exist in beautiful harmony with each other.

*Our Edelstein ink collection is also a visual attraction. The exceptional design of the flacon has already become a collector's item.*

# EDELSTEIN® INK

## A BRILLIANT INK COLLECTION.

For decades, Pelikan has stood for high-quality, prestigious inks. In 2012 we started a completely new chapter in the world of inks with our exclusive Edelstein Ink Collection. This represented a milestone in the history of Pelikan.

The Edelstein ink consists of nine brilliant colors corresponding to famous precious stones from around the world. Due to the unique formula, the ink enables a particularly smooth writing experience while simultaneously caring for your pen from within. The prestigious bottle's design is reminiscent of a cut diamond, which gives the entire collection an extremely elegant touch.

### EDELSTEIN INK OF THE YEAR

The Ink of the Year is very much a special highlight. Each year we present a new Edelstein Ink of the Year limited to just that calendar year. The demand for our 2016 color, "Aquamarine", was so great that we have decided to incorporate an Ink of the Year into our regular range for the first time.

*Seven of the Edelstein ink colors are also available in our regular range as ink cartridges with an elegant metal case. Ideal for combining with the Classic P 200 or P 205.*

# INK 4001®

## GENUINE RENOWN.

Our 4001® inks are part of a number of our products that have proven themselves over many decades. First mentioned in a document from 1897, they are still a highly important product for any friend of the Pelikan brand today. Thanks to the formula which has been perfected down to the finest detail, the proven quality of the 4001® inks is consistently assured. They guarantee an even flow of ink, powerful written expression, and vibrant color. A true jack of all trades.

The shape of the 4001® ink bottle makes it easy to refill your fountain pen at any time: Should the ink be nearing its end, you can absorb the last drops left by turning the bottle on its side.

The legendary 4001® is a classic among inks. It enjoys renown all across the world.

Turquoise

Pink

The ink color "Royal blue" is washable and can be erased with an ink eradicator.

## OUTSTANDING RESISTANCE.

Our range offers three various inks that possess a different degree of lightfastness on account of their special composition. Every product is still subject to Pelikan's demanding quality control.

### ● 4001<sup>®</sup> Blue black

Our 4001 ink in a blue/black tone can be categorized as relatively lightfast.

It is an iron gall ink, which means that it is far more permanent than, for example, the 4001 in Royal Blue or Brilliant Black.

Thanks to the special ingredients in the formula, it can be used in both piston and cartridge fountain pens. Over time, the color of the ink changes from blue/black to gray, though the ink will always remain visible.

During development we made sure that the concentration of iron gall is low enough to avoid corrosion. Consequently, the ink does not decompose the paper used.

The flow of ink and width of the nib determine the thickness of the stroke made on the paper. The absorbing capacity of the paper also determines how much ink can be applied. One factor that also plays a very decisive role is the amount of time that the ink has been exposed to the light for.

We recommend "Fount India" to all customers seeking an ink that is even more permanent than our 4001.

### ●● Fount India<sup>®</sup>

This ink is opaque and lightfast, forming part of our document-proof category of inks. Fount India can be used in piston fountain pens or, with a converter, in cartridge pens too. Carbon pigment is a component of the Fount India formula. As a result, this ink possesses almost the same level of lightfastness as our Scribtol ink.

What is important, however, is that the ink does not dry out or dry up completely in your fountain pen. To avoid this happening, you should regularly rinse out your pen with cold water.

Fount India	221 143	221148	518s	6

\* Not for fountain pens

### ●●● Scribtol

The most durable ink in our range is Scribtol. It provides good coverage and is lightfast as well as being non-fade, so that this ink can be categorized as document-proof. Due to its composition, which allows it to achieve such a high level of permanence, it is unsuitable for fountain pens. We mainly recommend Scribtol for use with dip or nib pens.

# PEN CASES

## OPTIMALLY EQUIPPED.

In order for you to enjoy decades of writing pleasure with your writing instrument, you should protect it the best way possible. Our Pelikan cases for writing instruments are the ideal choice for this and brilliantly safeguard your Pelikan investment. Modern or classic? Patent or smooth leather? It is your choice.

Our classic leather cases in black or black/green are the perfect accessories for all situations. You can safely store one, two, or three writing instruments in them. They are an elegant accessory and come in two versions: in top-grain leather or as smooth nappa leather. Soft as silk and with a black lining.

The colorful, patent leather cases with high-quality zipper are the cherry on top when it comes to modern accessories. They are available as a case for two and make a vibrant statement in three attractive colors.

*The tag on the zipper is imprinted with the Pelikan logo.*
